Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4(e) Other: Amended claim 15 is missing certain elements that were part of the original claim set examined. For example claim is missing---preferably an LED (this is in context of the light source). If the applicant wishes to delete this part then the amended claim language should indicate this by strike through.

Original claim referred to 5-6 fluorescent detector entities. Amended claim does not show that "-6" has been deleted. Applicant is advised to submit an amended claim 15 that has all the elements of the previous claim that was examined with the appropriate portions deleted by strike through and new additions indicated by underlining.

Claims 16 and 17 shows incorrect identifier. (previously amended). The claim set examined in previous first action on merits (mailed on 6/14/2007) were original claims (4/24/2007 claim set) in the case and not amended.

Applicant is advised to correct all the above inconsistencies and submit an amended claim set that corrects all the defects identified above for examination and further consideration by Examiner.
